Silicone Film Coating

硅胶薄膜喷涂技术

Chinese invention patent / 中国发明专利技术

One thin film. Many possibilities.

轻薄一层，更多可能。

Sprayed liquid silicone forms a thin, soft film, bonded seamlessly to the product surface.

液态硅胶喷涂于产品表面，形成轻薄、柔软、连续贴合的薄膜。

LSR / Liquid Silicone Rubber

LSR / 液态硅胶

Glass / 玻璃　Ceramic / 陶瓷　Stainless steel / 不锈钢

Food-grade silicone / 食品级硅胶

Color, transparency & pattern

From single colors and clear gradients to custom patterns.

从单一色彩到透明渐变，再到专属花纹。

Single color	Transparent	Clear gradient	Color gradient	Custom pattern
纯色	透明	透明渐变	拼色渐变	花纹定制

Custom shapes, sizes & colors. Application and finish concepts / 形状、尺寸及颜色均可按需定制；应用及配色效果示意

A softer touch.
Added protection.

柔软可感，防护随行。

Ordinary glass

When glass breaks, fragments can separate and scatter.

玻璃破裂后，碎片可能分离散落。

Silicone-film glass

Helps hold broken glass together and reduce fragment scattering.

帮助包裹破裂玻璃，减少碎片飞散。

Images from separate sources, not a controlled test. Blue sample background restyled.
不同来源效果展示，非同条件测试。蓝色杯图根据实拍重制背景。

Soft, secure grip

柔软触感，拿握更稳

Helps buffer heat

提供一定隔热

Quieter placement

轻放降噪

Seamlessly formed coating

一体成型

Easy to clean

易于清洗

Gap-free bond, no dirt-trapping gaps

薄膜贴合无缝
不留卫生清洁空隙
